

MAINTENANCE

ALPHA BIOACT BTC

BIODEGRADABLE TOILET BIO-CLEANER

DESCRIPTION

ALPHA BIOACT BTC is an optimized blend of specially selected micro-organisms and natural biosurfactants, formulated to maintain bathrooms and all kinds of surfaces (tiles, plastic, enamel, stainless steel) as well as for preserving sewage treatment plants.

Immediately when applied, it cleans the dirty surfaces deeply, while instantly blocking the source of odours, due to the degrading action of biosurfactants. It renovates enamel and taps, making them shine like new and leaves a pleasant fragrance of hygiene and cleanliness.

If **ALPHA BIOACT BTC** is used on a regular basis, cleaning operations become easier. It eliminates scale and uric deposits and prevents saturation. **ALPHA BIOACT BTC** maintains drainpipes by protecting aerobic flora and deodorizes, leaving a lasting fragrance thanks to the action of biosurfactants.

APPLICATION

Apply **ALPHA BIOACT BTC** on toilets, urinals, showers, bathtubs, etc. Ideal for all kinds of surfaces, such as tiles, plastic, enamel, stainless steel. Suitable for use in sewage treatment systems.

USE AND DOSING

ALPHA BIOACT BTC is ready-to-use, do not dilute.

For regular cleaning, apply using a sponge, brush, mop etc., like a classical cleaning product. Rinse if necessary.

For piping, toilets and urinals, use 1 to 2 squirts/urinal. Best results are achieved if product is applied on evenings, after the toilets have been used or when they are least used.

Note: Do not use toilet cleaners containing toxic ingredients as acids, disinfectants, bleaches, etc., when using **ALPHA BIOACT BTC**.

PRODUCT PROPERTIES

Contains viable bacterial cultures and linalool. Biosurfactants are produced by non-pathogenic bacteria (Class 1 E.F.B.), safe for mankind, flora and fauna in accordance with the European directive 2000/54/CE. General Instructions: Avoid spillage, splashing and mishandling. Precautionary measures for body protection are strongly recommended before and during use.

Appearance:	Gel	pH (100gr/lit):	Acidic
Miscibility:	100% in water	Flash Point:	None

- ✓ Biological, containing micro-organisms
- ✓ In form of gel - easy to use
- ✓ Can be used on all types of surfaces
- ✓ Works both as a cure and as a prevention
- ✓ Eliminates odours, leaving a long-lasting and pleasant fragrance
- ✓ Ideal for the up-keep of piping
- ✓ Maintains drainpipes and drainage traps
- ✓ Replaces standard cleaners that could harm the biological sewage cleaner system
- ✓ More economic and safer than physio-chemical or mechanical cleaning methods
- ✓ May also be used with an automatic dosing machine connected to piping
- ✓ Composition conforming to European directive 2000/54/CE

PROBLEMS SOLVED

- ✓ Scale
- ✓ Clogging
- ✓ Uric deposits
- ✓ Odours

APPLICATION AREAS

- ✓ Surfaces of all types
- ✓ Toilets / Urinals
- ✓ Piping & Drains
- ✓ Sewage
